#### ORANGE POLICE DEPARTMENT

### KIDS PRINT VOLUNTEER PROGRAM

#### **What Is Kids Print?**

Kids Print is a form of identification for children who cannot identify themselves due to injuries, disabilities, trauma or because they are too young to speak. Should an emergency situation happen to your child, you could give the Kids Print Card to Police Officers. The print card contains your child's palm print and the date the prints were taken. Parents complete the card with your child's personal information; i.e., date of birth, weight, height, hair color, eye color, and marks/scars. The prints are kept in a safe location, but easy to locate in case of emergency.

Children can be printed from ages two weeks old to 12 years. For babies, their feet are printed instead of their hands. Babies' fingerprints have not yet developed, but it is recommended that palm prints be taken at preschool age and again once they enter elementary school.

For dates, times, and locations of upcoming events nearest you, or to schedule an event, call
