The City of Orange Wants Your Help!

All cities in the State of California are required to divert their waste from the landfill each year. One bin of manure and stable bedding weighs about four times more than a typical waste bin. By participating in CR&R’s Stable Bedding program, you can be a partner in helping the City meet its diversion goal while helping the environment.

Why participate in the manure and stable bedding recycle program?

- Save money - City of Orange residents receive a discount on stable bedding bins
