

DIRT HAULING OPERATIONS
PERMIT CONDITIONS

AUTHORITY

Under the appropriate authority of Orange Municipal Code Chapter 10.67.030; and Division 15, Chapter 5, Article 6 of the California Vehicle Code (CVC), the City of Orange may, at its discretion, issue special permits to operate or move a vehicle or combination of vehicles or special mobile equipment of a size or weight of vehicle or load exceeding the maximums specified in the CVC. Except as specifically provided herein, the requirements of the CVC, including vehicle registration requirements, signing (CVC 27900) and other applicable laws, must be complied with in all particulars.

POSSESSION OF PERMIT

This permit shall be carried in the vehicle to which it refers at all times while the vehicle is being moved within the highway limits, and shall be open to inspection by any California Safety Alliance officer, authorized agent of the City of Orange, or any other officer or employee charged with the care and protection of such highways (CVC 35783).

IMPORT OR EXPORT OF EARTH MATERIAL – O.M.C. CHAPTER 10.67.030

Any person, firm, association or corporation moving more than 500 cubic yards of earth material shall comply with the following requirements, per the City of Orange Grading Manual.

The following requirements shall apply when more than five hundred cubic yards (500 cu. yd.) of earth material per project is moved to or from the site of an earth grading operation in a one day period, or, when more than twenty-five hundred cubic yards (2,500 cu. yd.) of earth material per project is moved to or from the site of an earth grading operation over a period of time exceeding one day on public roadways.

- a) Haul routes shall be identified and approved by the City Traffic Engineer.
- b) Trailers carrying loads of earth material shall, in a manner adequate to prevent the earth material from blowing or bouncing out of or otherwise leaving the truck and/or trailer while traveling or standing upon any public roadway, cover the load of earth material with a tarpaulin prior to entering any public roadway in the City of Orange.
- c) A street sweeper and/or water truck may be required on the job site to mitigate effects of dirt, mud, dust and debris on the roadway.
- d) Days and hours of haul will be reviewed and approved by the City Traffic Engineer to mitigate area and peak hour traffic conflicts.
- e) Provide evidence of proper liability insurance coverage acceptable to the City Traffic Engineer naming the City of Orange as additionally insured.
- f) A cash deposit by certified/cashier's check only may be required to ensure the streets utilized in the haul route will be maintained in a clean and orderly condition throughout the hauling operations, and to protect against any damage to City infrastructure.

Which in conformance with the provisions of this section, a Hauling Permit shall be issued by the City Traffic Engineer.

Hauls in excess of 30,000 cubic yards requiring the use of City streets will require City Council approval and the possible provision of the following additional measures:

- a) Periodic safety inspection of all haul trucks.
- b) A hold harmless agreement between the City of Orange and the grading contractor will be required for vehicles hauling earth material to and from the project site.
- c) Flagmen and/or automatic traffic lights may be necessary as required by the City Traffic Engineer.
- d) A cash deposit may be required to ensure against loss of pavement life along primary haul routes.

I HEREBY CERTIFY THAT I HAVE READ AND UNDERSTAND THE CONDITIONS OF THIS PERMIT AS OUTLINED.
