

CEQA Qualified Consultant List

Community Development

For private development projects that require CEQA review, applicants are required to contract directly with an environmental consultant for preparation of environmental documents, in consultation with the Community Development Director. To facilitate this process, the City of Orange has prepared a Qualified CEQA Consultant List through a Request for Qualifications (RFQ) and selection process. The firms listed on this page have been evaluated by Staff, determined to have met the City’s minimum criteria, and are considered qualified to prepare environmental documents. This list is provided as a service to customers of the City and does not represent an endorsement of the specific firms or individuals. The firms are listed alphabetically; however, no ranking is implied. Applicants may choose to use a consultant on the City’s Qualified CEQA Consultant List, but are not required to do so.
